Cynthia Farnum was absent from the 6th Grade because of receiving an injury to her face while going home Monday night when she fell on the ice.

The Maine State Police offers these common sense suggestions to help us protect ourselves during ours of dusk and darkness: As Motorists: Take it easy; don't speed through the tricky twilight and stay afert. Remember that the other fellow may need your lights to see you before you actually need them to see the road. So turn on your driving (not parking) lights at the first hint of dusk. Dim these lights for an oncoming driver even though he falls to do so. Finally, if you must stop on the highway at night, never stop on the pavement. Pull completely off the road and turn on both dome and parking lights. Carry flares and use them in emergencies. As Pedestrians: Always walk on the sidewalk if there is on the sidewalk if there is one. If not, and you must walk in the roadway, walk on left shoulder, facing traffic. Wear white or reflectorized clothing or carry a light or something white or reflectorized. Be careful about estimating the speed of oncoming cars when crossing without traffic signals. Cross at intersections in urban areas lighted ones at night.

two dreams; one for the designer and contractor, William A. Dexter, Jr., and the other for the Norman Johnson famly who purchased the cottage

"When I designed the plans for the chalet," Dexter said, "it was only a dream plan. I thought it would never be built. I had in mind something different than the same of the count than the count that t ferent than the usual concrete block type houses when I designed the cottage for the corner lot. I thought I would go ahead and build the house and speculate with it to see the public's reaction.

"About the time I was ready to start building the cottage along came the Johnson fam-

simmons, Pleasant Mt., 80.7. Chamber of Commerce

the local Chamber of Commerce put on a banquet at the Congredemy in both cross-country and football. Others attending were the ceaches of the two teams and honored guests, Wilbur Myers was the master of ceremonies. The coaches of both teams, Robert Seatt and Frank Vogt, both gave a few remarks. Captains of the respective teams introduced their team-mates to the members of the Chamber of Commerce.

One-Act Play Program William Bingham Gymnasium will be the setting of three one-act plays on Saturday evening, January 27, at 8:00 p.

In a departure from the usual fare of farcial or situation comedy, the program will in-clude one serious drama out of the three, entitled "Mirage." It is the hope of the cast and the director that the audience, which has always been gener-cus in its reception of the comedies in the past, will find the change a worthwhile one. The titles of the other two plays are: "Sweet Sixteen" and "Four Little Words."

The Johnsons wanted a three bedroom home as they had their daughter, Mrs. Sylvia

When Dexter showed the Johnson family the plans for is sufficient interest in the recently in the Clearwater Sun. The Johnson family the plans for the chalet, there was a comduring March or April to detection during March or April to detect the number of pupils interested. No registrations will be accepted prior to that A Swiss chalet has fulfilled golly I like that—it's different. himself, "they don't like it." Then Johnson exclaimed, "By block houses."

thing, but I love the plans and arrangement of the cottage."

Mrs. Sloan said it reminded her of ski lodges in Maine, something familiar to the whole family as they are from Bethel, Maine.

The Swiss chalet has a living room, dining area, kitchen, bed-room and bath downstairs and two tedrooms and bath upstairs. The front bedroom has its Romeo and Juliet balcony one school. and the back bedroom has a large sun deck which is roof for the carport.

dren are inclined to follow in your footsteps—literally, as Mr. and Mrs. James Lamont well as figuratively. Good or of Hebron were callers at Erthem to a marked degree. The them dangerous walking habits by providing a bad example.

Senator Byrd recently pointed that gasoline taxes now total almost 50 per cent of the retail price of the fuel. He added: "Highway users are paying these tremendous sums to build a network of modern. high-speed state and Federal highways. I am not altogether convinced that they are getting their money's worth. I am, in fact, gravely suspicious that some of their money is being wasted in gingerbread design and extravagances and, what is worse, some of it disappearing in loose administrative practices, irregularities and profiteering. And the costs, far from going down or even re-maining the same, keep going up and up.'

"INDOMITABLE TO CONQUER"

Tyrants invariably come to a violent end. Being tyrants, they lack respect for the individual, and the capacity to judge the latent energies of free nations. Perhaps, the greatest danger of war lies in this one weakness of the dictator.

The Joplin, Missouri, Globe, recently addressed a timely message editorially to Mr. Khruschev:

"You couldn't understand such things, but the full force of America's patriotism is within her breast, it permeates prehend.

Basic Facts on Winter

back to Pearl Harbor day, December 7, 1941, when America was caught napping....

"Almost overnight, Americans were outproducing both Hitler and the Japanese warlords. They went from a few thousand warplanes to 300,000, from 464 outmoded tanks to 90,000 modern ones, from a trickle of shipping production to a peak of 24 million tons in 1943. They mobilized the greatest mechanized military machine in all history....

"In addition, they picked your punch-drunk nation up off the floor and revived it to help her soul. It may be latent, but turn back Hitler's legions. And it is all-powerful. It would be American science gave the * the greatest tragedy in all world nuclear power that endworld history for you to mis- ed the war, the secrets of which take human fears of nuclear your country didn't have the war for a lack of courage and ingenuity to fathom, but infaith to fight and sacrifice for stead stole from us. This kind a priceless freedom which you of a powerful America still and your people do not com- lives today ... It may be vulnerable to attack, but it re-

Homeward Bound or Snowbound?

fice department of the National Safety Council.

"These drivers cause thousands of property damage and many fatal crashes each time

time Old Man Winter swoops into their communities." Por-ter said. "They have become so dependent on good winter road maintenance by snow removal and sanding crews of the city and state and by transit companies that they ignore their personal responsibility to be mentally prepared and to have their vehicles equipped for unusually severe winter driving conditions," he said.

When such drivers crash into someone or get stalled they blame the storm, and street or highway department, or the other driver, but seldom themselves, Porter said. He believes fust a little know-how about winter driving would keep them out of trouble. Many drivers don't use good

judgement in when to drive. and fail to equip their vehicles preperly if they must be out in a severe storm," Porter said.

The other four are: (1) Effeet of temperature, (2) Reduced ability to stop and steer, (3) Unexpected jey conditions, and (d) Ice and snow made slip-

pery by traffic.

To help crivers help themselves in the prevention of accidents and costly delays, Mr. ter. Porter urged all snow-belt drivero to consider the following facts and recommendations based on research by the Coun-cil's Committee on Winter Driving Hazards: Effect of Temperature

Always drive with the thermemeter in mind. Braking distance about doubles as the temperature rises from 10 to 32 degrees.

OXFORD COUNTY CITIZEN The Bethel News, 1895 The Rumferd Citizen, 1906 Entered as second class matter, May 7, 1908, at the post office at Bothel, Maine, Printed and pub-Hahed Thursdays at Bathel by Citizen Printers Inc. Telephone VAndyke 4-244. Subscription rate,

tenin sach.

Everyone realizes that the Driving Revealed by Tests melting ice cube is far more Many urban area motorists slippery than the very cold cube from snow-belt states who are as it comes from the freezer-good drivers or a 'dry track" but many drivers have not asbecome nearly helpless in win- sociated this fact with ley road ter storms because they don't conditions where wet ice at 30 know how to drive on ice and degrees is more slippery and snow, according to Harry Por- offers about half the traction ter, Jr., manager of the Traf- of ice around 10 degrees above zero. A car going at 20 m. p. h. takes 114 feet to stop on glare ice at zero degrees, but at 32 degrees above zero, the same car will take 235 feet to stop, Reinforced tire chains will reduce it to about 77 feet.

Reduced Visibility Road slush and grime, ice and snow, early hours of darkness, all make it hard to see on winter roads. Drivers must double efforts to keep lights, wind-Since drivers must see a hazerated Witter's Esso Station and to avoid it they should keep and Cabins for the past 18 windshield wiper blades in top years. He had the misfortune and sleet off instead of sliding over it.

Inadequate Traction to Go Pulling away from a stand-still, climbing hills, or going through deep snow can all cause trouble- from aggravating delays to major tie-ups and accidents.

Consider these test facts dur. ing severe conditions: On glare dictating which is needed and ite, snow tires proved 20 per adequate. Equally important, cent better than regular tires, and perhaps more dangerous, regular tire chains 231 per cent better, and reinforced tire chains, which the committee protected spots on the road, ice recommends every driver carry in his trunk for emergency

On loosely packed snow, the snow tires are 51 per cent better than regular tires, and reinferred tire chains 313 per sliding to a stop or spinning cent better in traction ability. to get started on snow and ice cent better in traction ability. Reduced Ability to Stop

and Steer Poor traction on snow or ice surfaces. This ceeurs particustretches braking distances larly at intersections, on curves from three to twelve times the and hills. Polishing lengthens distance you need en dry pave-ment. Once again, good tires, sic and presents unusually snow tires, and chains give greater control. On glare ice and particularly at railroad for regular tires is 195 feet, Mr. Porter urges motorists

Steering is also extremely and chains, (2) Be able to see delicate on ice and snow. Forc- and be seen, (3) Get the feel es that tend to throw your ve- of the road, (4) Follow at a VAndyke 4-244, Subscription rate, in the control of uttenat to make a sudden steep. brakes

Thursday, January 25 Read II Corinthians 1; 18-24

All the promises of God find their Yes in him. That is why we utter the Amen through him, to the glory of God. ((II Corinthians 1:20. RSV.)

My grandmother used to mark with pencil the promises of God in the Bible. Thus she nourished her soul on His sure Word.

My mother, who also loved her Bible, had a "Promise Box." This consisted of tiny rolls of stiff paper, each containing some promise from God's Word. Each morning she would take, out a promise. When I visited her, I would semetimes be offered the box from which to draw a promise. I can testify from the experience of both of us how often the words we read were timely and relevent to our need.

How blessed to depend upon God's promises in the Bible which are never reversed and which never fail! Our souls need them, if we are to keep spiritually strong-just as our hearsal, bodies need daily food, John Wesley once described the gospel as one great promise—as indeed it is.

PRAYER: O God; who hast made such great and precious promises to all who be-lieve Thy Word, help us by daily trust in Thee to prove them in our own experience. May we know that whatever may befall us, Thy promises are ever faithful, ever sure; through Christ our Lord. Am-

God's Word is ever timely, always relevant to our need.

V. A. NEWS LETTER

Far too many of the 50,000 pieces of mail that flow through the Togus Center of the Veterans Administration each year cannot be properly identified, Dr. Joseph Weltman, Manager, disclosed today.

Too many veterans and their dependants merely sign their names to correspondence, and names are not enough.

Almost all of the 110,000 names in the VA Togus office master index file are duplicated. As might be expected, there are almost 350 Poulins, 800 Clarks, and more than 500 Wilsons and 1,200 Smiths, but most other names are duplicated scores of times.

The veteran's claim number or "C-number" and his insurance number are his alone, Dr. Weltman pointed out. Inclusion of these numbers in correspondence will insure prompt and efficient service, and save the time and cost of additional correspondence.

ed as possibly being shown at a future meeting. Mrs. Cross handed back project account sheets from last year and announced that all members will he expected to give demonstrations at the next meeting. This meeting will be held Feb. 1. NOW... **LIVELINESS** AND LUXURY IN A FULL LINE OF LOW-PRICED CARS

Eleven new-size models make One-Stop Shopping easier than ever at your Chevrolet dealer's

Nothing fair to middling about the spacious and spunky new lineup of low-priced cars from Chevrolet! From the looks of these nifty top-of-the-line Novas (unmistakably new), you'd never guess they're so easy to own. Even some bigger cars wonder how we got so much full-size family room into such a parkable package-and such hustle out of a 6 that sips gas so sparingly. Your dealer will point out more reasons why luxury and a low

price have never been more beautifully blended!

See the new Chevy II, new Chevrolet and new Corvair at your local authorized Chevrolet dealer's
